Cautionary Note Regarding Forward-Looking Statements

This presentation contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, Section 21E of the Securities Exchange Act of 1934, as amended, and the "safe-harbor" provisions under the Private Securities Litigation Reform Act of 1995, that involve risks and uncertainties. The terms "aim," "anticipate," "believe," "contemplates," "continues," "could," "ensure," "estimate," "expect," "forecasts," "if," "intend," "likely," "may," "might," "objective," "outlook," "plan," "positioned," "potential," "predict," "probable," "project," "shall," "should," "strategy," "will," "would," and variations of them and other words and terms of similar meaning and expression (and the negatives of such words and terms) are intended to identify forward-looking statements.

Forward-looking statements can also be identified by the fact that they do not relate strictly to historical or current facts. Such forward-looking statements are based on current expectations and involve inherent risks, uncertainties and assumptions, including factors that could delay, divert or change any of them, and could cause actual outcomes to differ materially from current expectations. DSG can give no assurance that any goal or plan set forth in forward-looking statements can be achieved and DSG cautions readers not to place undue reliance on such statements. DSG undertakes no obligation to release publicly any revisions to forward-looking statements as a result of new information, future events or otherwise. Each forward-looking statement speaks only as of the date on which such statement is made, and DSG undertakes no obligation to update any such statement to reflect events or circumstances arising after such date. Actual results may differ materially from those projected as a result of certain risks and uncertainties. Factors that could cause or contribute to such differences or that might otherwise impact DSG's business, financial condition and results of operations include the risks that DSG may encounter difficulties integrating the business of DSG with the business of other companies that DSG has combined with or may otherwise combine with and that certain assumptions with respect to such business or transactions could prove to be inaccurate. Certain risks associated with DSG's business are also discussed from time to time in the reports DSG files with the Securities and Exchange Commission, including the Company's Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K or other reports the Company may file from time to time with the Securities and Exchange Commission, which should be reviewed carefully.

Non-GAAP Financial Measures, SEC Regulation G GAAP Reconciliations

Some of the financial information and data contained in this presentation, such as Adjusted Revenue, Pre-Acquisition Revenue and Adjusted EBITDA, have not been prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company believes that these non-GAAP financial measures provide useful information to management and investors regarding certain financial and business trends relating to DSG's financial condition and results of operations. DSG does not consider non-GAAP measures an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is they may exclude significant expense and income items that are required by GAAP to be recognized in our consolidated financial statements. In addition, they reflect the exercise of management's judgment about which expense and income items are excluded or included in determining these non-GAAP financial measures. Non-GAAP financial measures should not be relied upon, in whole or part, in evaluating the financial condition, results of operations or future prospects of DSG. A reconciliation of the non-GAAP financial measures to the nearest comparable GAAP financial measures is contained in the appendix.
