Disclaimers

Cautionary Note Regarding Forward-Looking Statements

This presentation contains certain "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended, that involve risks and uncertainties. Terms such as "aim," "anticipate," "believe," "contemplates," "continues," "could," "ensure," "estimate," "expect," "forecasts," "if," "intend," "likely," "may," "might," "objective," "outlook," "plan," "positioned," "potential," "predict," "probable," "project," "shall," "should," "strategy," "will," "would," and variations of them and other words and terms of similar meaning and expression (and the negatives of such words and terms) are intended to identify forward-looking statements. Forward-looking statements can also be identified by the fact that they do not relate strictly to historical or current facts. Such forward-looking statements are based on current expectations and involve inherent risks, uncertainties and assumptions, including factors that could delay, divert or change any of them, and could cause actual outcomes to differ materially from current expectations. Distribution Solutions Group ("DSG") can give no assurance that any goal or plan set forth in forward-looking statements can be achieved and DSG cautions readers not to place undue reliance on such statements, which speak only as of the date made. DSG undertakes no obligation to release publicly any revisions to forward-looking statements as a result of new information, future events or otherwise. Actual results may differ materially from those projected as a result of certain risks and uncertainties. Certain risks associated with DSG's business are also discussed from time to time in the reports DSG files with the SEC, including DSG's Annual Report on Form 10-K, DSG's Quarterly Reports on Form 10-Q and DSG's Current Reports on Form 8-K, which should be reviewed carefully. In addition, the following factors, among others, could cause actual outcomes and results to differ materially from those discussed in the forward-looking statements: (i) unanticipated difficulties, expenditures or any problems arising in connection with or after the combination of the businesses of Lawson Products, TestEquity and Gexpro Services (the "merger"), which may result in DSG not operating as effectively and efficiently as expected; (ii) the risk that stockholder litigation in connection with the merger or any other acquisition or business combination completed by DSG or any of its subsidiaries results in significant costs of defense, indemnification and liability; and (iii) the risks that DSG may encounter difficulties integrating the business of DSG with the business of other companies that DSG has acquired or may acquire or has otherwise combined with or may otherwise combine with, that DSG may not achieve the anticipated synergies contemplated with respect to any such business or transactions and that certain assumptions with respect to such business or transactions could prove to be inaccurate.

Non-GAAP Financial Measures, SEC Regulation G GAAP Reconciliations

Some of the financial information and data contained in this presentation, such as Adjusted Revenue, Pre-Acquisition Revenue and Adjusted EBITDA, have not been prepared in accordance with U.S. generally accepted accounting principles ("GAAP"). The Company believes that these non-GAAP financial measures provide useful information to management and investors regarding certain financial and business trends relating to DSG's financial condition and results of operations. DSG does not consider non-GAAP measures an alternative to financial measures determined in accordance with GAAP. The principal limitation of these non-GAAP financial measures is they may exclude significant expense and income items that are required by GAAP to be recognized in our consolidated financial statements. In addition, they reflect the exercise of management's judgment about which expense and income items are excluded or included in determining these non-GAAP financial measures. Non-GAAP financial measures should not be relied upon, in whole or part, in evaluating the financial condition, results of operations or future prospects of DSG. A reconciliation of the non-GAAP financial measures to the nearest comparable GAAP financial measures is contained in the appendix.

Compounding Effect of Cash Flow Reinvestment

Disciplined Capital Allocation Framework with a Healthy Competition for Capital

(1) Defined as Reg G EBITDA less Reg G cash items, less capex, plus/minus change in inventory, accounts receivable & accounts payable divided by Reg G EBITDA..

Acquisition Criteria

Unique customer value proposition

Strong organic growth and potential for scale in attractive end markets

Synergistic across the platform while driving higher structural margins

A clear integration thesis to unlock targeted value-enhancement levers

Prioritizing North American footprint

MRO Focus

- Product offering expansion in safety, cutting tools, automotive, and fluid power categories
- Leverage current VMI offering across acquired company's customer base
- Augment current go-to-market model with technical product/service specialists
- Expand manufacturing customer presence especially in the US and Canada
- Other focus areas include private label and eCommerce

OEM Focus

- Expansion of fasteners, fabrication, electricals, mechanicals, & gasket/seals/o-ring products
- Strengthen value proposition with strategic sourcing, VMI offering, specification engineering resources, and manufacturing capabilities
- Complementary technology solutions including eCommerce, WMS, AI, etc.
- End market focus: Aerospace & Defense, Industrial Power, Renewables, Technology in North America, Europe, and SE Asia

Industrial Technologies Focus

- Distribution: EPS & T&M, with emphasis on acquiring companies with strong technical sales force
- Calibration: Adding this capability to RFID asset management service offering provides very sticky customer relationships and "final brick in moat"
- Used/Rental: Capital intensive, high margins, sticky customer relationships
- Geographic expansion focus in US, Western Europe and Canada

M&A Focus Areas

Q1 2024 Consolidated Financial Highlights

Reported Revenue and Adjusted EBITDA

- ✓ Q1 revenue of \$416.1M; up \$67.8M or 19.5% due to 2023 and 2024 acquisitions. Q1 two-year stacked organic growth up 4.7% while Q1 organic down 8.6% on comparable days primarily from continued softness in technology end-market, renewables maintenance and capital spending.
- ✓ Q1 adjusted EBITDA of \$36.1M or 8.7% of sales; up \$2.2 million or 30bps from 8.4% of sales in the fourth quarter of 2023.

Other Financial Highlights

Robust Net Working Capital Investment

\$433.4M

3/31/2024 Trade WC

High returns realized on working capital investments

Focus on Deleveraging via Earnings Growth and Free Cash Flow Generation

LKCM Headwater Introduction

- Private, employee-owned SEC-registered investment advisor
- Founded in 1979 with over 67 investment and other professionals
- \$27.8 billion of assets under management (3/31/2024)
- C-corp with 45 years of retained earnings
- Primarily long-term, long-equity strategies for individuals and families
- LKCM, investment team & affiliates are collectively the firm's largest client

- Private investment arm of LKCM
- Over 100 years of collective experience & more than 100 businesses in the distribution space
- LKCM, investment team and affiliates are collectively the largest investor (~1/3 of capital)
- Engaged group of over 100 retired and active operating executives that are investors in the partnerships and willingness to lean into engagements to improve value within the portfolio
- More than \$2.1 billion of committed private capital

SIGNIFICANT PRIVATE COMPANY DISTRIBUTION EXPERIENCE

CURRENT

ERIKS **LewisGoetz** **Seals and Plastics** **CNC**

- LG - Leading distributor of fabricated hose, gaskets and belting for specialized and mission-critical applications
- ESP - Value-added provider of mission-critical sealing solutions to diverse end markets
- CNC - Leading provider of flow control solutions to the energy industry

Gexpro Services

- Value-added distributor specializing in designing and implementing supply chain solutions / VMI for OEM customers

BUILDING CONTROLS & SOLUTIONS

- Leading provider of building automation, controls and gas detection solutions for the commercial buildings market

relevant.

- Value-added instrumentation, controls, automation and rotating equipment distributor with engineering and service capabilities

TESTEQUITY

- Largest North American specialty distributor of electronic production supplies and T&M equipment

BEARC-M

- North America's leading value-added distributor and service provider of mission-critical communication solutions

GSMS

- High growth value-added distributor, packager and re-packager of generic pharmaceuticals

IDG Industrial Distribution Group

- Provider of supply chain solutions and distributor of indirect materials primarily to manufacturers

Rawson

- Leading value-added instrumentation and valve distributor based in the Gulf Coast

FORMER

Who We Are

DSG is a best-in-class specialty distribution company providing high-touch, value-added distribution solutions to the MRO, OEM, and Industrial Technologies verticals in a diversified set of end markets.

We take a solutions-based approach to serving our customers the way they want to be served.

DSG operates under three distinct verticals with many benefits of a scaled, integrated platform.

Highly Aligned Leadership / Governance
